Firebase & Push Notifications

Authentication & Laravel Sanctum

Payment Integrations (Stripe, Google Pay, Apple Pay, PayPal,
Visa & Mastercard).

Agora & Real-Time Communication

Git & GitHub

Android & iOS Deployment

MVVM & MVC Architecture.

State Management

Deep Linking (Universal Links for iOS, App Links for Android).

UI/UX to Flutter Implementation.

Google Maps Integration.

PROFESSIONAL EXPERIENCE

1. Zynvo Voice Chat App — Full-Stack Mobile Developer 2026 · Client Project · Private Repository

Built the Flutter mobile app and Laravel backend with REST
APIs, MySQL, authentication, room management, real-time
voice communication, messaging, notifications, and deployment
support.

2. RastLabs Service Marketplace — Flutter Developer 2026 · Client Project · Private Repository

Worked on a production Flutter app with a Laravel backend,
improving the mobile UI, fixing backend issues, working with
MySQL and APIs, and supporting debugging and App Store
release.

3. Live Flutter Application Maintenance — Flutter Developer 2025 · Client Project · Private Repository

Maintained and improved live Flutter applications, including
debugging, issue fixing, and production release support.

PROJECTS

1. Furniture E-commerce App

2025 · Client Project · Private Repository

Flutter · Laravel · MySQL · REST APIs · Firebase

Built the complete mobile frontend and backend for a furniture e-commerce app with authentication, product browsing, cart functionality, order management, and real-time order tracking.

2. Fitness / Workout App

2024 · Client Project · Private Repository

Flutter · Laravel · MySQL · REST APIs · Firebase

Built a full-stack fitness application with workouts, progress tracking, booking, trainer profiles, messaging, notifications, authentication, and user settings.

3. Online Learning Platform App

2024 · Client Project · Private Repository

Flutter · Dart · Firebase

Developed the Flutter frontend for an e-learning platform with authentication, course discovery, search and filters, personalized recommendations, instructor listings, and profile management.
